COMMUNITY EMERGENCY RESPONSE TEAM (CERT)

Basic Training Class, *Wednesday evenings, September 12 thru November 14, 2018*

Are you interested in becoming a Community Emergency Response Team (CERT) member and helping your family, friends and neighbors in a time of need?

The CERT program educates individuals nationwide on how to assist family, friends, neighbors and themselves in the event of a disaster. Also, CERT members assist their communities year-round at local events; in the aftermath of severe weather; or at any other venue where city leaders need the assistance of additional personnel.

The program includes training on disaster preparedness for hazards that may impact your area as well as teaches basic disaster response skills, such as fire safety, light search and rescue, team organization and disaster medical operations.

Training consists of eight, three-hour sessions and a drill.

Southwest General, in conjunction with the cities listed below, have blended resources and experience for CERT academy training. If you, or someone you know, might be interested in becoming a CERT member, contact your City/County Representative.

- **City of Berea:** Lt. Terry Ledwell, bereacert@gmail.com
