1301.01 ADOPTION.

There is hereby adopted by the Municipality, the Ohio Building Code (OBC) and related codes as adopted by the Ohio Board of Building Standards, Department of Industrial Relations, effective January 1, 2016, as amended to date, and as identified and published in Division 4101:1 et seq. of the Ohio Administrative Code (OAC).

1301.02 PURPOSE.

The purpose of the Ohio Building Code is to establish uniform minimum requirements for the erection, construction, repair, alteration, and maintenance of buildings, including construction of industrialized units. Such requirements shall relate to the conservation of energy, safety, and sanitation of buildings for their intended use and occupancy with consideration for the following:

- (a) Performance. Establish such requirements, in terms of performance objectives for the use intended.
- (b) Extent of Use. Permit to the fullest extent feasible, the use of materials and technical methods, devices, and improvements which tend to reduce the cost of construction without affecting minimum requirements for the health, safety, and security of the occupants of buildings without preferential treatment of types or classes of materials or products or methods of construction.
- (c) Standardization. To encourage, so far as may be practicable, the standardization of construction practices, methods, equipment, material and techniques, including methods employed to produce industrialized units.

The rules of the Board of Building Standards and proceedings shall be liberally construed in order to promote its purpose. When the Building Official finds that the proposed design is a reasonable interpretation of the provisions of this Code, it shall be approved. Materials, equipment and devices approved by the Building Official pursuant to Section 114 of the Ohio Building Code shall be constructed and installed in accordance with such approval.

(OBC 101.3)

1301.03 SCOPE.

(a) Application and Compliance. The provisions of the Ohio Building Code, the Ohio Mechanical Code and the Ohio Plumbing Code shall apply to the construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, maintenance, removal and demolition of every building or structure or any appurtenances connected or attached to such buildings or structures. As provided in Section 3791.04(B) of the Ohio Revised Code, no plans or specifications shall be approved or inspection approval given unless the building represented by those plans or specifications would, if constructed, repaired, erected or equipped according to those plans or specifications, comply with Chapters 3781 and 3791 of the Ohio Revised Code and any rules adopted by the Board.

(a) Adjudication Orders Required. When the Building Official denies any approval or takes action in response to findings of non-compliance with the rules of the Board, such action shall be initiated by issuing an adjudication order, prior to seeking any remedy, civil or criminal. Every adjudication order shall:

- (1) Clearly identify the section of law or rules violated.
- (2) Clearly identify, in a contrasting and obviously marked manner, all violations related to accessibility.
- (3) Specifically indicate which detail, installation, site preparation, material, appliance, device, addition, alteration to structures, construction documents, assemblages or procedures are necessary to change to comply with the order.
- (4) When issued to stop work, the order shall also clearly indicate the specific work that is required to cease, when the work must cease and the conditions under which the cited work will be permitted to resume. The order to stop work shall be given to the owner of the property involved, to the owner's agent and the person doing the work.
- (5) Include notice of the procedure for appeal and right to a hearing if requested within thirty days of the mailing of the order. The order shall also indicate that, at the hearing, the owner may be represented by counsel, present arguments or contentions orally or in writing, and present evidence and examine witnesses appearing for or against the owner.
- (6) Any hearing(s) scheduled for accessibility issues shall cause the Building Official or the appeals board to notify a local advocate organization for people with disabilities of the scheduled hearing. 1301.07 UNSAFE BUILDINGS.

(a) Unsafe Buildings Defined. Structures or existing equipment that are unsafe or unsanitary due to inadequate means of egress facilities, inadequate light and ventilation, or which constitute a fire hazard, or are otherwise dangerous to human life, shall be deemed a serious hazard. Where a building is found to be a serious hazard, such hazard shall be eliminated or the building shall be vacated, and where such building, when vacated, remains a serious hazard, it shall be razed.

(b) Orders, Injunction Proceedings. Where the Building Official finds that a building is a serious hazard and the owner of such building fails, in the time specified in an order from the Building Official, to eliminate such hazard, or to vacate or raze the building, the building official shall proceed under Ohio R.C. 3781.15.

(c) Restoration. Where the structure or equipment is determined to be unsafe by the Building Official, it is permitted to be restored to a safe condition. (OBC 109)

1301.08 CONFLICT.

(a) General. Where, in any specific case, different sections of the Ohio Building Code specify different materials, methods of construction or other requirements, the most restrictive shall govern. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall be applicable.

(b) Other Laws. The provisions of the Ohio Building Code shall not be deemed to nullify any provisions of state or federal law. The Municipality may make further and additional regulations, not in conflict with Ohio R.C. Chapters 3781 and 3791 or with the rules of the Board of Building Standards. However approval by the Board of Building Standards of any fixture, device, material, system, assembly or product of a manufacturing process, or method or manner of construction or installation shall constitute approval for their use anywhere

in Ohio.

(c) Other Rules. As provided in division (B) of Ohio R.C. 3781.11, the rules of the Board of Building Standards shall supersede and govern any order, standard or rule of the Divisions of State Fire Marshal or Industrial Compliance in the Department of Commerce, and the Department of Health and of counties and townships, in all cases where such orders, standards or rules are in conflict with the rules of the Board of Building Standards, except that rules adopted and orders issued by the Fire Marshal pursuant to Ohio R.C. Chapter 3743 prevail in the event of a conflict.

There may be other requirements owners may be required to meet as set forth by other licensing agencies such as the Ohio State Fire Marshal, Ohio Department of Health, the Ohio Department of Jobs and Family Services, Ohio Department of Mental Health and Addiction Services, Ohio Department of Developmental Disabilities, federal agencies, or other licensing authorities. Owners and designers should investigate these additional licensing agency requirements to ensure they are incorporated into the building design before submitting to the certified building department for plan approval.

The rules of the Board of Building Standards adopted pursuant to Ohio R.C. 3781.10 shall govern any rule or standard adopted by the Board pursuant to Ohio R.C. 4104.02 and 4105.011.

(OBC 102)

(2) Special inspections are as required under Section 1704 of the Ohio Building Code.
