

**City of Berea – 2025 CDSG Application  
Edgewood Drive Improvement Project**

**Project Description**

This project will accomplish improvements to Edgewood Drive from Lindbergh Boulevard to Crescent Drive within the City of Berea. Work will include resurfacing of the road, sidewalk and apron replacement as needed, and drainage improvements. The existing pavement will be resurfaced including milling the existing asphalt and the installation of two layers of asphalt pavement. Base pavement and ADA Ramps will be replaced on an as-needed basis. Any existing manholes, catch basins, water valve boxes, and monument boxes in need of repair will be reconstructed. Any sidewalks or aprons in need of repair or that are disturbed during the project will be replaced. Storm sewers will be extended, and underdrains will be installed to improve surface and subsurface drainage.

The City will apply for \$50,000 in grant funds through the 2025 Cuyahoga County Supplemental Grant Program (CDSG). If the grant is awarded, construction will take place between April and December 2025 during the CDSG Program Term. The project is expected to take 60 to 90 days to complete.
